

PROMISE PAGE STUDY TIPS

Yes, It Will Be On The Test!

SELF: *Be Organized and Ready to Learn:* Use your school provided planner or get one that is suitable for you. If your teacher asks you to write it down, write it down and study it. Review it, even if it's not going to "be on the test." You never know when you might need the information again.

OTHERS: *Show Respect:* Be mindful that others are in your class to learn. Show respect for them by not disrupting your classmates or your teacher.

LEARNING: *Try:* No one knows everything. If you don't understand something, ask your teacher or someone else for help. Remember that you are gifted, intelligent, talented, and you can learn any subject matter!

Students, in your free time, with your parents/guardians' permission, participate in a church group, youth group, debate team, boys and girls club, after school program, team sports, or other extra curricular activities at school and in the community. Give back to your community by volunteering your service and time to those in need.

"There is nothing in a caterpillar that tells you it's going to be a butterfly."
